

# **Rectifier Diode**

Replaces January 2000 version, DS4180-5.0

DS4180-6.0 August 2001

### **FEATURES**

- Double Side Cooling
- High Surge Capability

### **APPLICATIONS**

- Rectification
- Freewheel Diode
- DC Motor Control
- Power Supplies
- Welding
- Battery Chargers

### **VOLTAGE RATINGS**

| Type Number | Repetitive Peak<br>Reverse Voltage<br>V <sub>RRM</sub><br>V | Conditions                 |
|-------------|---|----------------------------|
| DNB64 36    | 3600  | $V_{RSM} = V_{RRM} + 100V$ |
| DNB64 34    | 3400  | IXOW IXIW                  |
| DNB64 32    | 3200  |                            |
| DNB64 30    | 3000  |                            |
| DNB64 28    | 2800  |                            |
| DNB64 26    | 2600  |                            |

Lower voltage grades available.

### **ORDERING INFORMATION**

When ordering, select the required part number shown in the Voltage Ratings selection table, e.g.:

### **DNB6434**

Note: Please use the complete part number when ordering and quote this number in any future correspondance relating to your order.

### **KEY PARAMETERS**

V<sub>RRM</sub> 3600V I<sub>F(AV)</sub> 3019A I<sub>FSM</sub> 27000A

### **CHARACTERISTICS**

| Symbol           | Parameter             | Conditions   | Тур. | Max. | Units |
|------------------|-----------------------|--|------|------|-------|
| $V_{_{FM}}$      | Forward voltage       | At 1500A peak, T <sub>case</sub> = 25°C  | -    | 1.1  | V     |
| I <sub>RRM</sub> | Peak reverse current  | At V <sub>RRM</sub> , T <sub>case</sub> = 175°C  | -    | 100  | mA    |
| $Q_s$            | Total stored charge   | $I_{F} = 1000A$ , $dI_{RR}/dt = 5A/\mu s$<br>$-T_{case} = 125^{\circ}C$ , $V_{R} = 100V$ | 4000 | -    | μC    |
| I <sub>RR</sub>  | Peak recovery current |  | 150  | -    | Α     |
| t <sub>rr</sub>  | Reverse recovery time |  | 30   | -    | μs    |
| V <sub>TO</sub>  | Threshold voltage     | At T <sub>vj</sub> = 175°C   | -    | 0.86 | ٧     |
| r <sub>T</sub>   | Slope resistance      | At T <sub>vj</sub> = 175°C   | -    | 0.2  | mΩ    |

# **CURVES**

Fig.2 Maximum (limit) forward characteristics

V<sub>FM</sub> Equation:-

$$V_{FM} = A + Bln (I_F) + C.I_F + D.\sqrt{I_F}$$

Fig.3 Dissipation curves

Where A = 0.506497

B = 0.070975

C = 0.000219

D = -0.00553

these values are valid for  $T_i = 125$  °C for  $I_F 500A$  to 10000A

Fig.5 Maximum (limit) transient thermal impedance - junction to case

# **PACKAGE DETAILS**

For further package information, please contact your nearest Customer Service Centre. All dimensions in mm, unless stated otherwise. DO NOT SCALE.

# Note:

1. Package maybe supplied with pins and/or tags.

### **POWER ASSEMBLY CAPABILITY**

The Power Assembly group was set up to provide a support service for those customers requiring more than the basic semiconductor, and has developed a flexible range of heatsink / clamping systems in line with advances in device types and the voltage and current capability of our semiconductors.

We offer an extensive range of air and liquid cooled assemblies covering the full range of circuit designs in general use today. The Assembly group continues to offer high quality engineering support dedicated to designing new units to satisfy the growing needs of our

Using the up to date CAD methods our team of design and applications engineers aim to provide the Power Assembly Complete solution (PACs).

### **DEVICE CLAMPS**

Disc devices require the correct clamping force to ensure their safe operation. The PACs range offers a varied selection of pre-loaded clamps to suit all of our manufactured devices. This include cube clamps for single side cooling of 'T' 22mm

Clamps are available for single or double side cooling, with high insulation versions for high voltage assemblies.

Please refer to our application note on device clamping, AN4839

#### **HEATSINKS**

Power Assembly has its own proprietary range of extruded aluminium heatsinks. They have been designed to optimise the performance or our semiconductors. Data with respect to air natural, forced air and liquid cooling (with flow rates) is available on request.

For further information on device clamps, heatsinks and assemblies, please contact your nearest Sales Representative or Customer Services.

#### **Datasheet Annotations:**

Dynex Semiconductor annotate datasheets in the top right hard corner of the front page, to indicate product status. The annotations are as follows:-

Target Information: This is the most tentative form of information and represents a very preliminary specification. No actual design work on the product has been started.

Preliminary Information: The product is in design and development. The datasheet represents the product as it is understood but details may change.

Advance Information: The product design is complete and final characterisation for volume production is well in hand.

No Annotation: The product parameters are fixed and the product is available to datasheet specification.

This publication is issued to provide information only which (unless agreed by the Company in writing) may not be used, applied or reproduced for any purpose nor form part of any order or contract nor to be regarded as a representation relating to the products or services concerned. No warranty or guarantee express or implied is made regarding the capability, performance or suitability of any product or service. The Company reserves the right to alter without prior notice the specification, design or price of any product or service. Information concerning possible methods of use is provided as a guide only and does not constitute any guarantee that such methods of use will be satisfactory in a specific piece of equipment. It is the user's responsibly to fully determine the performance and suitability of any equipment using such information and to ensure that any publication or data used is up to date and has not been superseded. These products are not suitable for use in any medical products whose failure to perform may result in significant injury or death to the user. All products and materials are sold and services provided subject to the Company's conditions of sale, which are available on request

All brand names and product names used in this publication are trademarks, registered trademarks or trade names of their respective owners
